Introducing Paladina Health: a new primary care provider (PCP) offering for our Anthem participants.

Starting August 1, you will have the option of selecting Paladina Health as your primary care provider (PCP) with Anthem. Watch your email/Daily Blast for more information regarding registration and on-campus educational sessions that will occur during the month of July.

Unlike traditional health systems, Paladina Health doctors see roughly 1/3 the number of patients and are available to you by phone – 24/7. Further, you have access to see your doctor quickly, including same or next day appointments for urgent health issues. There are currently 8 locations in the Denver-metro area, including Lakewood and Arvada.
