1.0 Background, Purpose, and Jurisdiction

The Board of Trustees of the Colorado School of Mines (“Mines”) adopted the Campus Free Speech Policy (“the Policy”) that describes the process for Mines students, faculty, staff and other members of the Mines community, and members of the public to access Mines property and facilities for Public Speech Activity. The primary use of Mines’ property and facilities is for activities that are directly related to Mines’ educational mission and purpose, including teaching, research, preparation of scholarly material, student activities, as well as campus support operations. These procedures provide details and processes necessary to implement the activities described in the Policy, and other property and facility use on campus in furtherance of the educational mission of Mines. Definitions of relevant terms related to or used in this procedure are found in Appendix A of this document.

2.0 Public Speech Activities

When events involving Public Speech Activity as defined in the Campus Free Speech Policy, are required to be registered in advance, the following registration form will be completed and provided to the Associate Vice President for Student Life in order to coordinate the request. This requirement is to prevent disruption of normal educational activities, manage competing requests for the same venue, preserve the health and safety of persons, and prevent damage to property. In the event access to campus facilities other than the Student Center or areas managed by Student Life is requested, the Associate Vice President of Student Life (“AVP Student Life”), or designee, will consult and coordinate with the principal academic or administrative official who manages the facility or campus site to be utilized.
If a request to engage in Public Speech Activity on the Mines campus is denied, the requesting party will be notified in writing by the AVP Student Life and will be informed of the reasons for such denial.
